WELCOME!

We would like to welcome you to the Axtell Cattle Company Fall Female Sale. 2020 has certainly brought it's share of challenges including a pretty widespread drought for most of our state. We ran our pastures pretty hard this summer and didn't see any hay production so we are cutting back our numbers. We will be selling approximately 100 cows and bred heifers through this sale and will sell some other commercial cows and cull cows locally.

We tried to put together an offering that represents a cross section of our entire herd. The majority of our bred heifers are included. Those that we kept back are either black red gene carriers, out of sires that we want to get a few heifers from to see how they do, or are out of old cows that we just can't replicate. The ones we kept are not necessarily the top end, rather one's that didn't fit for one reason or another. We also have a good selection of young cows, middle aged cows and some of our "foundation" type cows that are aged.

The older end of this group includes some of the best cows we've owned. We feel that all of these girls have a few more calves left in them. We don't pamper old cows here and the lack of grass this last year made that tougher on them. The fact that these girls all bred back in a year like this is a testament to their production. Looking through the list, we feel that these older cows are what has made us what we are today.

You will notice that some cows have an AX- brand and some a VA brand. These are our two family brands, AX- is Brian and Jamie and the VA are Brian's parents, Vaughn and Joyce Axtell. These are all Axtell Cattle Company cows and a part of the same genetic program. Cows run together all summer and are only managed separately at calving time. Brian knows these cows well and what they can do for your program. Please don't hesitate to contact him if you have any questions. As most of you know, he will always give you his honest opinion of the cattle!

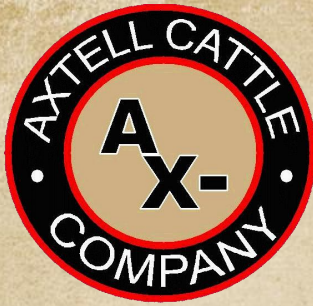

Be sure to check out videos of all the sale cattle online at DVauction.com. These cows are not clipped, brushed or pampered but they are ready to go to work for you. We invite you to stop by anytime to see the sale cattle. Just call ahead to set up a time and get directions. The sale offering will also be available for viewing at the sale location on the afternoon of November 12th.

We look forward to seeing you sale day, but if you are unable to attend and wish to bid just contact us, the sale representatives or pre-register on dvauction.com a couple days prior to the sale. You are able to bid live on [DVauction](http://DVauction.com). We will also have CattleUSA.com available sale day.

Please let us know if we can be of any assistance to you in the buying process. We love to talk about cattle and would be glad to visit with you anytime. Also be sure to follow our facebook page and website for more details. Hope to see you November 13th!

713 is out of one of my favorite cows that sells as Lot 91. She is a very moderate, easy fleshing cow. I like her production and the cow herself. This good uddered, moderate framed cow is a low input type of cow and is the grand dam of EOR Perfect Score, the only bull to have a perfect score for DNA Fescue Tolerance, bred by Roy Freeman in Missouri. She came from a May/June calving herd and was able to catch up to our calving schedule, proving her fertility. DUE 3/12/21 to RED SSS Calidad 870G

207 is a good cow. A little more frame and length, good confirmation, good udder, good feet and a good disposition. She also produces well above average. She has one son in a registered herd. She is straight Beckton in pedigree, but has a little more pop than her pedigree might suggest. A Good all around cow! DUE 3/12/21 to AXTELL EPIC 511

055 has been a top cow for us with a 106 MPPA. We've had bulls sell well from her and her daughter, 370 is one of the very best cows in the herd. I've seen a lot worse cows flushed. I think a Donor Cow needs to earn her way, not be a pretty, yet unproven heifer. This cow is proven. **Due 3/7/21 to AXTELL DOMINOR 4124 or AXTELL RED KNIGHT 6249**

One of my favorite all time cows. She is a top producer that raised a top end bull this year. She is an easy fleshing cow, has perfect feet and a good udder. Weaning early on dry pastures

Dusty days

Smoky skies have become quite common this fall. We currently have several major fires burning to the west in the mountains.

117 and 130 (Lots 80/76)

Dreaming of green grass and better days in 2021!
