10 Yearling Charolais Bulls
20 Registered Red Angus Heifers
30 Commercial Red Angus Heifers

This sale will be broadcast live on the internet.

DVAuction
Broadcasting Real-Time Auctions
Real time bidding & proxy bidding available.

WELCOME!

We would like to welcome you to the annual Axtell Cattle Company production sale.

This set of bulls is one that we are very proud of. They weaned incredibly well with basically no sickness and took off growing. I feel there are many bulls in the offering that have the quality to be herd sires in registered herds. The quality runs deep on this group of bulls! I would have to say that they are "winter tested", they've kept on going through some brutal weather from December on. While the winter has been costly with hay, the grass should be green to start the year!

We also feel the quality of the registered heifers is excellent. We tried to keep most of our replacements from sires and dams we no longer have and by doing that, we will be offering a bunch of heifers from good young cows in our herd, and ones we really had no intention of selling. We've got daughters of some of our top cows in the group this year. The disposition of these heifers is phenomenal.

The commercial heifers will be from two customers. One group will be January calves with extra growth. These are the heifers that have topped our sale every year. The other group will be early April born heifers that will be more moderate in frame with excellent quality. Both groups of heifers will be great assets to commercial herds in the area. Be sure to check out videos of all the bulls and heifers online at DVAuction.com. Keep in mind that they will have matured another month from the date of the videos.

We invite you to stop by anytime to see the bulls and heifers, our herd sires or cowherd. Just call ahead to set up a time and get directions. The sale offering will be available for viewing at the sale location on the afternoon of March 26th. We look forward to seeing you sale day, but if you are unable to attend and wish to bid, just contact us, the sale representatives or pre-register on dvauction.com a couple days prior to the sale. You are able to bid live on [DVAuction](http://DVAuction.com) or leave proxy bids on lots you may be interested in.

Please let us know if we can be of any assistance to you in the buying process. We love to talk about cattle and would be glad to visit with you anytime. I will shoot it to you straight on any lots you may have interest in. Our goal is to have the right animals with the right buyers. We have years of experience with these cattle and if we know what you are looking for, we can assist you in getting the correct animals for your environment and management. Also be sure to follow our facebook page and website for more details. Hope to see you March 27th.

The Axtell Family

Facebook: Axtell Cattle Company

Inspection of Cattle: All bulls and registered heifers can be viewed at the ranch near Anton. Please call to set up an appointment and obtain directions. All sale animals will be available for preview at the sale location on the afternoon of March 26th.

Health: Health papers can be furnished for cattle to be shipped out of state. All bulls are tested negative for BVD and have passed a fertility test.

Delivery: Free delivery up to 250 miles is available on bulls and registered heifers. Other arrangements can be made on an individual basis, please call prior to sale.

NO DELIVERY IS AVAILABLE ON COMMERCIAL HEIFERS.

Possession: Bulls can be taken after purchase or we will care for the bulls until April 15th, free of charge.

Guarantee: All bulls have passed fertility tests. All bulls will be guaranteed sound for the first breeding season (until Sept 1, 2023); however, the seller will not be held responsible for mistreatment or mismanagement. If a suitable replacement is available he will be furnished—OR— a credit toward a purchase in next years sale if a suitable replacement is not available.

Sale Order: Commercial heifers will start the sale, followed by bulls and registered heifers in catalog order.

Semen Interest: Axtell Cattle is retaining a 1/3 revenue sharing semen interest in all bulls selling. Buyer will retain all salvage value of bull.

EPD Updates: Please note that EPD's are now recalculated weekly. Data in the catalog is from the first of March.

Liability Statement: All persons attend this sale at their own risk. Neither Axtell Cattle Company or any other person connected with the management of the sale assumes any liability, legal or otherwise.

Lunch: Please join us before the sale for a complimentary lunch served in the salebarn café upstairs from the salering and office.

Absentee Bidding: Anyone wishing to bid who cannot attend the sale may place bids by contacting us or the sale representatives listed. Internet bidding is also available through DVAuction.com and CATTLEUSA.com. Online bidding requires pre-registration prior to the sale.

This sale will be broadcast live on the internet.

4124 was our all time high selling bull selling to Feiring Angus in North Dakota. We bought him back when they had too many daughters. He's still going at 9 years of age and makes excellent, moderate daughters and calving ease sons. He's been an excellent bull and continues to dominate multiple sire pastures.

We retained 8935 due to his good feet, good performance and uncanny maternal ability of his dam. No matter the strength of a blizzard, she calved outside and had a calf that was dry and healthy. EPD's don't account for everything, a cow like that needs her genes passed on to the next generation!

We purchased Bob from our friends, Sheaman Red Angus. His 18 year old dam is still in production and is one of my favorite Red Angus cows. Bob is an easy calving bull that should make top notch females.

COMMERCIAL HEIFERS

This year we are offering two groups of commercial replacement heifers. These heifers are owned and raised by Steve and Matt Kalous from Brush, Colorado and Lucas and Maureen Beek of Cheyenne Wells, Colorado. Each group of heifers will come into the ring five at a time, sorted by weight and type. The buyer will buy that five and has the option of taking the entire lot as well. We would allow a young person to pull one heifer out if they are wanting to find a show heifer. We believe this is a great group of red females that will make their new owners proud. The commercial heifers will START the sale at 1:00 P.M. so be ready for these outstanding females!

Lot A: 15 Head - Steve and Matt Kalous – Brush, CO Steve (970) 768-2451

Steve and Matt Kalous are offering 15 head of replacement heifers. These heifers are born in January and February and are out of a high performance / maternal cattle herd. They will have extra size and weight and will make top cows. They are sired by many past sale toppers from our herd. They will be mostly by Flying K Max, Red Knight, Dominator and Redwing sons. Steve and Matt buy the good ones and it is evident in the quality of their cattle. If you want to tie into top genetics, look at these girls. I would call this group, one of the best sets of cattle to sell in the state this spring. These heifers are weighing in the 850 lb. range, but are moderate framed and backed by generations of similar type. Please call Steve to discuss these heifers. He has documented carcass data on their steer mates that will make you salivate. Just an outstanding group of heifers!

Lot B: 15 Head - Beek Family – Cheyenne Wells, CO Lucas (719) 342-1005 or Maureen (719) 342-2969

The Beek family – Lucas and Maureen Beek are offering 15 head of replacement heifers. These heifers are born in April and are from a maternal cattle herd that doesn't pamper their cattle. These cattle will know how to go out and work for a living. These heifers are all April born heifers and will really pop when they get out on grass. They are sired by Axtell and Kravig Red Angus bulls. They will be a nice set of cattle from a really good family that has a passion for good cattle. The Beek's also have a beef business, so contact them for that as well. These heifers are weighing in the 650-700 lb. range, are moderate framed and backed by a hard working cow herd. Please call Lucas or Maureen to discuss these heifers.

Please note that **NO DELIVERY** will be available on commercial heifers.

Pictured are the 2018 consignment by Steve and Matt Kalous. For this year's consignments, check out videos on DVAuction.com

Lot 1

This is my type of bull. Deep, long, thick and heavy muscled. Moderate BW, huge scrotal and backed by my favorite cow on the place. We collected his brother who sold to Karl and Ginger Wright last year. This bull is a cow maker!

I love the type of this bull, the typical muscle of a Red Knight 6249, but with a little more frame, due to his excellent dam. She produced our second high selling bull two years ago to Steve Kalous.

Lot 21

Do you sell calves on Superior??
Be sure to let them know that you use
Axtell bulls and you can qualify for the
Superior Progressive Genetics
value added program.

Here is a cherry red tank. He will add as much "look" as any bull to sell this spring. He's not tall, but he sure is deep, thick and wide. He's a bull that is a perfect combination of his deep bodied dam and he's a slightly more moderate version of his sire, Knock Out. If you like them moderate, flashy and stout, he's your guy.

JAMIE'S PICK OF THE PEN - I'm not sure how this bull didn't make the top ten in the catalog. I'll assume it was sleep deprivation or snow blindness from the many hours Brian spent pushing snow this winter. Don't let his lot tag fool you, he is definitely worthy of a second look in the pen!

Here is a moderate framed, thick made bull out of a beautiful OCC Easy Red daughter. Easy Red daughters are some of my favorites. This bull is thick and deep and will make great females, but he also had a 110 WW Ratio.

30 AXTELL CUBE 2769

The final Red Angus bull of the day! We try to put a sure shot calving ease bull last in case someone missed out on a heifer bull. This one is a small framed bull, but he has a lot of depth and thickness. He would be ideal for a grass fed operation.

We are proud to lead off our Charolais division with this stud. He is a heck of a bull, no matter the color. He is sired by National Champion, Backwater Jack. 2247 started small, grew well at weaning, with an actual weight of 800 lbs. He is my type, thick, deep ribbed and full of muscle and very long bodied. He's sensible framed but has a ton of performance and is backed by a moderate cow with a great udder and type! This bull is a true standout!

This 50% Red Angus / 50% Charolais bull is moderate and stout. He will add hybrid vigor to Red Angus females and make good females as well. I think there is a lot of value in this cross.

REGISTERED HEIFERS

We will be bringing the heifers into the ring in groups of two. You will have the option of purchasing one heifer or both, your choice.

The heifers in the offering are right out of the replacement pen including some from the very top. They are not big, fat heifers, but are in good condition to go to work for you. They will grow well once they hit green grass. They are raised right along with our other heifers and should mature into 1,000 lb. bred heifers. We feel that over feeding young heifers is detrimental to their potential milking ability and structure.

We've included some of our top growth heifers and some of the more moderate heifers in an attempt to have something for different tastes in cattle. There are quite a few heifers in this offering that I really don't want to part with, but we only have so many spots.

This fancy heifer is very low BW and deep bodied. Her dam is a very good young cow. Her teat size and suspension is excellent, but the spacing is a little close, therefore the poorer rating on udder quality.

					</

This is a nice, cherry red heifer from Knock Out going back to the good, proven 303 cow, who is a great maternal cow. 303 lost a quarter this year, therefore the lower udder rating, but she has been a great cow for us.

The final heifer of the day is kind of a special one. If you like big, rangy heifers, she's not for you. This is a thick, deep and very moderate heifer that is younger than the others in the pen. She has a nice look and will be an easy keeper and should have a great udder.

Red Angus Guide to EPDS and Indexes

ProS ... Profitability and Sustainability is an all-purpose index that predicts average economic differences in all segments in the beef supply chain. This index is a combination of the breeding objectives modeled in the HerdBuilder and GridMaster selection indexes. In this index, replacement heifers are retained from within the herd and all remaining progeny are fed out to slaughter and sold on a quality-based grid. Traits included in this index include calving ease, growth, HPG, STAY, Mature Weight, Dry Matter Intake and carcass traits. The resulting index is expressed in dollars per head born (Index/High Value).

HB HerdBuilder is a maternal selection index that predicts the economic differences of animals for traits that are important from conception through weaning. Expressed as dollars per head born, HB is calculated based on the scenario that bulls are mated to heifers and cows, replacement heifers are retained and all remaining progeny are marketed at weaning. Traits included in the HB index include Calving Ease Direct, Calving Ease Maternal, Weaning Weight, Milk, Mature Weight, Heifer Pregnancy and Stayability (Index/High Value).

GM..... GridMaster is a selection index that predicts the average economic difference of non-replacement calves through the post-weaning phase of production. GM places selection pressure on growth, feedyard performance and carcass traits. Expressed as dollars per head born, GM is calculated based on the scenario that progeny are fed out to slaughter and marketed on a quality-based carcass grid. Traits included in GM include Average Daily Gain, Carcass Weight, Dry Matter Intake, Marbling, Back Fat and Rib Eye Area (Index/High Value).

CED Calving Ease Direct predicts differences in the percent of calves born unassisted out of 2-year-old dams. (Percent/High Value)

BW Birth Weight predicts differences in actual birth weight of progeny. (Pounds/Low Value)

WW Weaning Weight predicts differences in 205-day weaning weight. (Pounds/High Value)

YW Yearling Weight predicts differences in 365-day yearling weight. (Pounds/High Value)

ADG Average Daily Gain predicts differences in weight gain between 205 and 365 days of age. (Pounds/High Value)

DMI Dry Matter Intake predicts differences in daily feed intake as measured in a feedlot during the post-weaning period. (Pounds/Low Value)

MILK Milk predicts differences in weaning weight attributed to the milking ability of the animal's daughters. (Pounds/High Value)

ME Maintenance Energy predicts the difference in maintenance energy requirements. (Mcal per Month/Low Value)

HPG Heifer Pregnancy predicts differences in the percent of daughters who are able to conceive and calve at 2 years of age following exposure to breeding. (Percent/High Value)

CEM Calving Ease Maternal predicts differences in the percent of daughters who are able to calve unassisted as 2-year-old heifers. (Percent/High Value)

STAY Stayability predicts differences in the ability of an animals' retained daughters to remain productive in the herd – calve every year – through 6 years of age. (Percent/High Value)

MARB Marbling predicts differences in marbling score – amount of intramuscular fat measured at the 13th rib. (Marbling Score Units/High Value)

YG Yield Grade predicts differences in USDA Yield Grade, which is calculated using CW, REA and Fat. (Yield Grade Units/Low Value)

CW Carcass Weight predicts differences in actual hot carcass weight. (Pounds/High Value)

REA Ribeye Area predicts differences in square inches of ribeye area measured at the 13th rib. (Square Inches/High Value)

FAT Fat predicts differences in the depth of backfat measured between the 12th and 13th ribs. (Inches/Low Value)

Dedicated to our Dads

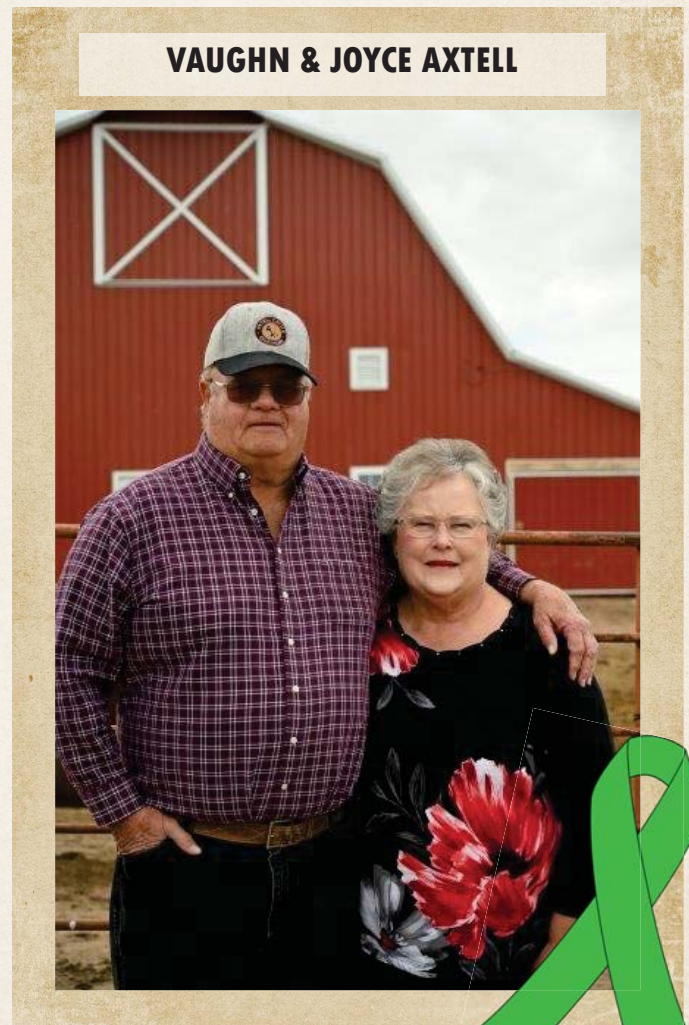

**This year's sale is dedicated to our families, especially our Dads.
Brian and I were both blessed to be raised by very special parents who taught us our appreciation
for family and our love of the livestock industry.**

**This fall, after a short time in hospice, we said goodbye to my dad, Denny Mekelburg.
He was a caring father who always had a story or joke to lighten the day.
He cherished his time with family and will always be Clay's beloved Papa Denny.**

**About a month after Denny's death, Brian's dad, Vaughn, was diagnosed with cancer.
He is currently battling "triple hit" lymphoma. We remain hopeful and positive for a recovery for
him but we are sure missing his day to day presence as we work bulls and prepare for our sale.**

DENNIS E. (DENNY) MEKELBURG
Dec. 9, 1943 – Nov. 27, 2022

Lot 19 with his dam

This winter was one for the record books here. We had a bad storm on December 12th and have been covered in snow ever since. Brian has certainly spent his share of days and nights pushing snow.

SPECIAL THANKS
to the crew at
Sterling Livestock Commission.
It is a pleasure working with you!
