60 Yearling Red Angus Bulls
5 Fall Yearling Black Angus Bulls
15 Registered Red Angus Heifers
plus commercial heifers and pairs

This sale will be broadcast live on the internet.

DVAuction

Broadcasting Real-Time Auctions

Real time bidding & proxy bidding available.

WELCOME!

We would like to welcome you to the annual Axtell Cattle Company bull and female sale.

Times are good in the cattle industry. Calf prices are at record highs and this is a good time to invest in the future of your herd with bulls that will improve your cow herd. This set of bulls is one that we are very proud of. They weaned incredibly well with basically no sickness and took off growing. The quality runs deep on this group of bulls! This group of bulls will be in working condition, they have a little less fat on them compared to last year. The bulls weighed a little less at weaning due to drought but have grown well on test.

We feel the quality of the registered heifers is excellent. As a whole, this is a very feminine group of heifers. We've included heifers from all of our sire lines including our new sires. We have growthy heifers and more moderate, calving ease type heifers. We wanted to include many varying types so there is one for everyone. Be sure to check out videos of all the bulls and heifers online at DVAuction.com. Keep in mind that they will have matured another month from the date of the videos.

The commercial heifers will be from three customers and will include a nice group of first calf heifer pairs in addition to the open heifers. One group will be January calves with extra growth. These are the heifers that have topped our sale nearly every year. The other group will be early April born heifers that will be more moderate in frame with excellent quality. Both groups of heifers will be great assets to commercial herds in the area. The pairs are from reputation genetics and are ready for grass.

We invite you to stop by anytime to see the bulls and heifers, our herd sires or cowherd. Just call ahead to set up a time and get directions. The sale offering will be available for viewing at the sale location on the afternoon of March 30th. We look forward to seeing you sale day, but if you are unable to attend and wish to bid just contact us, the sale representatives or pre-register on dvauction.com a couple days prior to the sale. You are able to bid live on DVAuction.com or leave proxy bids on lots you may be interested in. The sale will also be on CattleUSA.com as well.

Please let us know if we can be of any assistance to you in the buying process. We love to talk about cattle and would be glad to visit with you anytime. I will shoot it to you straight on any lots you may have interest in. Our goal is to have the right animals with the right buyers. We have years of experience with these cattle and if we know what you are looking for, we can assist you in getting the correct animals for your environment and management. Also be sure to follow our Facebook page and website for more details. Hope to see you March 31st!

The Axtell Family
Brian, Jamie Jo and Clay

Axtell Cattle Company PRODUCTION SALE

Monday, March 31

1:00 p.m. (MST)

**Sterling Livestock Commission
20197 Riverside Drive
Sterling, Colorado 80751**

Sale Day Phone Numbers:

Sterling Livestock Commission 970.522.1950

Brian Axtell - 970.554.1132

Jamie Jo Axtell - 970.554.1680

Sale Representatives:

Jason Santomaso, Sterling Livestock 970.520.3049

Cody Nye, The Fence Post/TSLN 308.760.8588

Mark Valko, Genetic Elite 970.630.3560

Inspection of Cattle: All bulls and registered heifers can be viewed at the ranch near Anton. Please call to set up an appointment and obtain directions. All sale animals will be available for preview at the sale location on the afternoon of March 30th.

Health: Health papers can be furnished for cattle to be shipped out of state. All bulls have passed a breeding soundness exam and trich test.

Delivery: Free delivery up to 250 miles offered for bulls and registered heifers. Free nationwide delivery for purchases totaling over \$10,000. **NO DELIVERY IS AVAILABLE ON COMMERCIAL HEIFERS.**

Possession: Bulls can be taken after purchase or we will care for the bulls until April 15th, free of charge.

Guarantee: All bulls have passed fertility tests. All bulls will be guaranteed sound for the first breeding season (until Sept 1, 2025); however, the seller will not be held responsible for mistreatment or mismanagement. If a suitable replacement is available he will be furnished—OR— a credit toward a purchase in next years sale if a suitable replacement is not available.

Sale Order: Commercial heifers will start the sale, followed by bulls and registered heifers in catalog order.

Semen Interest: Axtell Cattle is retaining a 1/3 revenue sharing semen interest in all bulls selling. Buyer will retain all salvage value of bull.

EPD Updates: Please note that EPD's are now recalculated weekly. Data in the catalog is from the end of February.

Genomic Testing: All registered bulls have been sire verified and genomic tested using the GGPLD 100k. This level of accuracy is equivalent to 15-20 progeny records.

Liability Statement: All persons attend this sale at their own risk. Neither Axtell Cattle Company or any other person connected with the management of the sale assumes any liability, legal or otherwise.

Lunch: Please join us before the sale for a complimentary lunch served in the salebarn café upstairs from the salering and office.

2024 was the last breeding season for Red Knight. He bred cows for seven years here. He was one of the heaviest muscled bulls we've had. He was moderate framed and very easy keeping. I never saw him thin. His influence is felt throughout the sale.

We were intrigued by 252 due to his correct structure, moderate frame and the fact that his dam was 15 and still producing. We've been very happy with his first calf crop, they are a good outcross to our typical bloodlines.

COMING SOON... We look forward to seeing the next calf crop featuring these herd sires. Craftsman was the much talked about Lot 1 in last year's Flat Water Gang Sale. Boxer is the bull that we co-own with Select Sires—Argentina. He stands at World West Sires in Montana and has garnered a lot of attention there. Semen Available

RIDGE CRAFTSMAN 3620

DUFF RED BOXER 21217

COMMERCIAL HEIFERS

This year we are offering a group of commercial first calf pairs in addition to the commercial replacement heifers. These heifers are owned and raised by Wyckoff Cattle from Cheraw, Colorado, Steve and Matt Kalous from Brush, Colorado and Lucas and Maureen Beek from Cheyenne Wells, Colorado.

Each lot of heifers will come into the ring in small groups, sorted by weight and type. The buyer will buy the group in the ring or has the option of taking the whole lot. We would allow a young person to pull one heifer out if they are wanting to find a show heifer.

We believe this is a great group of commercial females that will make their new owners proud. The commercial heifers will START the sale at 1:00 P.M. so be ready for these outstanding females!

LOT A: Wyckoff Cattle, JD Wyckoff - Cheraw, Colorado (580) 247-8154

Wyckoff Cattle is offering 10 first calf pairs.

These heifers originated from the Pat Shannon ranch in Kim, Colorado. They are straight Red Angus from a top commercial herd. The heifers were vaccinated in the fall and had Cleanup 2 on February 26th. The calves received a shot of 7 Way at birth. The calves are sired by Axtell Action and Cube sons both from the Axtell 785 cow, locking in uniformity. The calves were born mid February. This is a rare opportunity to purchase first calf pairs of top genetics. This lot allows you to get income quickly and still be left with a good young cow and the work of calving heifers is already done.

LOT B: Steve and Matt Kalous – Brush, CO (970) 768-2451

Steve and Matt are offering 15 head of replacement heifers.

These heifers are born in January and February and are out of a high performance / maternal cattle herd. They will have extra size and weight and will make top cows. They are sired many past sale toppers from our herd. They will be mostly by Flying K Max, Red Knight, Dominator, Knock Out and Redwing sons. They buy the good ones and it is evident in the quality of their cattle. If you want to tie into top genetics, look at these girls. I would call this group, one of the best sets of cattle to sell in the state this spring. These heifers are weighing in the 800 lb. range, but are moderate framed and backed by generations of similar type. Please call Steve to discuss these heifers. He has documented carcass data on their steer mates that will make your mouth water. Just an outstanding group of heifers!

LOT C: Beek Family – Cheyenne Wells, CO Lucas (719) 342-1005 or Maureen (719) 342-2969

The Beek family – Lucas and Maureen Beek are offering 15 head of replacement heifers.

These heifers are born in April and are from a maternal cattle herd that doesn't pamper their cattle. These cattle will know how to go out and work for a living. These heifers are all April born heifers and will really pop when they get out on grass. They are sired by Axtell and Kravig Red Angus bulls. They will be a nice set of cattle from a really good family that has a passion for good cattle. The Beek's also have a beef business, so contact them for that as well. These heifers are weighing in the 600-650 lb. range, are moderate framed and backed by a quality cowherd. Please call Lucas or Maureen to discuss these heifers.

Please note that NO DELIVERY will be available on commercial heifers.

Pictured are the 2018 consignment by Steve and Matt Kalous. For this year's consignments, check out videos on DVAuction.com

His dam is a smaller cow, but she raised this thick bull and also our #1 heifer last year. She knows how to raise a calf. This bull will add thickness and muscle. He should really muscle up a calf crop!

4078 was one of the biggest at weaning and is from one of our best cow families that always produces the big calves. This bull is thick and stout and will make big steers and productive daughters!

All registered bulls have been sire verified and genomic tested using GGP-LD (100k). This level of accuracy is equivalent to 15-20 progeny records.

This chunk is perfect to add thickness, muscle and reduce frame size. He is a maternal brother to Duff Red Boxer, who we own with Select Sires - Argentina, who is one of the most talked about bulls at stud. If you are serious about moderate, thick cattle, this bull should top your list.

This calving ease bull has two of the best maternal instinct cow's we've had in his pedigree. Grand dams 935 and 303 calved in calf killing blizzards multiple times each and their calves were always fine and rarely even wet. There is no better bull in the offering to produce highly maternal range cows.

Here's a moderate framed Red Knight out of a cow line of longevity. The grand dam was a fantastic cow and produced a high seller to Sheaman Red Angus.

We never keep bulls this young, but this is our one exception. His dam is one of our top cows, we had a bull issue that led to some late calvers and she was one of them. She's already calved this year so we don't hold that against her. This bull may be young but he's held his own against the older bulls.

The final black bull of the day is very thick and meaty. He will definitely improve fleshing ability and thickness. If you want low input cattle that have thickness, take a close look here.

REGISTERED HEIFERS

AX-

We will be bringing the heifers into the ring in groups of two. You will have the option of purchasing one heifer or both, your choice.

The heifers in the offering are right out of the replacement pen including some from the very top. They are not big, fat heifers, but are in good condition to go to work for you. They will grow well once they hit green grass. They are raised right along with our other heifers and should mature into 1,000 lb. bred heifers. We feel that over feeding young heifers is detrimental to their potential milking ability and structure.

We've included some of our top growth heifers and some of the more moderate heifers in an attempt to have something for different tastes in cattle. There are quite a few heifers in this offering that I really don't want to part with, but we only have so many spots.

PHOTO GALLERY

Winter came in full force in November this year leaving behind over 30 inches of snow.

Lot 9 pictured as a calf and in the pen (through the loader glass). I think Brian has been a fan of this bull since he was born.

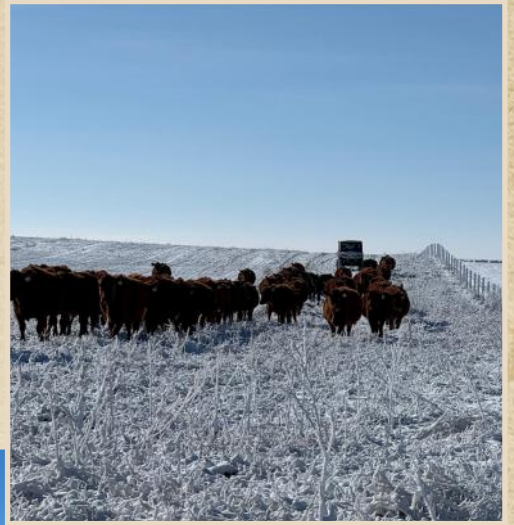

DUFF DIXIE ERICA 1120 1565
Dam of Red Duff Boxer 21217 and Lot 19

Boxer came home from World West Sires to breed cows here this summer. We look forward to his calves hitting the ground now. His maternal brother sells in the sale as Lot 19.

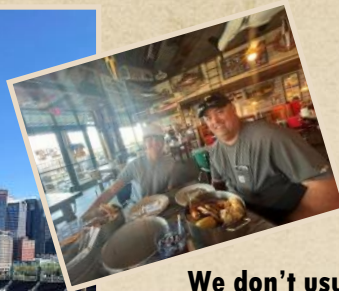

Lot 59 with his Dam

Water is something we don't often see here but we are blessed with one pasture with live water. The top pic is water after a wet snow storm in February.

OUR FAMILY

This was a year spent making memories with our family!

We don't usually get away too often but we decided a special trip in honor of Brian's 50th birthday was in order this past summer. He has always loved the Pittsburgh Pirates so we snuck away to catch a game at PNC Park.

Clay's high school team was the state runner up in 1A baseball. The pickup and trailer made a great billboard for Brian and his mom to cheer on the team as they passed through Anton on the way to state.

Clay's travel team, the Buckley Bombers, earned a spot at the 16U Babe Ruth World Series in Branson, MO. What a fantastic opportunity to represent Northeast Colorado and Nebraska as well as the USA.

Clay transferred schools this year which meant a change from 6-man to 8-man football. His team had a great season and ended up as the state runner-up.

We said goodbye to our friend Petey this past summer. He had gotten to be Brian's right hand man when he went out to feed or check cows.

Red Angus Guide to EPDS and Indexes

ProS... Profitability and Sustainability is an all-purpose index that predicts average economic differences in all segments in the beef supply chain. This index is a combination of the breeding objectives modeled in the HerdBuilder and GridMaster selection indexes. In this index, replacement heifers are retained from within the herd and all remaining progeny are fed out to slaughter and sold on a quality-based grid. Traits included in this index include calving ease, growth, HPG, STAY, Mature Weight, Dry Matter Intake and carcass traits. The resulting index is expressed in dollars per head born (Index/High Value).

HB..... HerdBuilder is a maternal selection index that predicts the economic differences of animals for traits that are important from conception through weaning. Expressed as dollars per head born, HB is calculated based on the scenario that bulls are mated to heifers and cows, replacement heifers are retained and all remaining progeny are marketed at weaning. Traits included in the HB index include Calving Ease Direct, Calving Ease Maternal, Weaning Weight, Milk, Mature Weight, Heifer Pregnancy and Stayability (Index/High Value).

GM..... GridMaster is a selection index that predicts the average economic difference of non-replacement calves through the post-weaning phase of production. GM places selection pressure on growth, feedyard performance and carcass traits. Expressed as dollars per head born, GM is calculated based on the scenario that progeny are fed out to slaughter and marketed on a quality-based carcass grid. Traits included in GM include Average Daily Gain, Carcass Weight, Dry Matter Intake, Marbling, Back Fat and Rib Eye Area (Index/High Value).

CED..... Calving Ease Direct predicts differences in the percent of calves born unassisted out of 2-year-old dams. (Percent/High Value)

BW..... Birth Weight predicts differences in actual birth weight of progeny. (Pounds/Low Value)

WW..... Weaning Weight predicts differences in 205-day weaning weight. (Pounds/High Value)

YW..... Yearling Weight predicts differences in 365-day yearling weight. (Pounds/High Value)

ADG..... Average Daily Gain predicts differences in weight gain between 205 and 365 days of age. (Pounds/High Value)

DMI..... Dry Matter Intake predicts differences in daily feed intake as measured in a feedlot during the post-weaning period. (Pounds/Low Value)

MILK..... Milk predicts differences in weaning weight attributed to the milking ability of the animal's daughters. (Pounds/High Value)

ME..... Maintenance Energy predicts the difference in maintenance energy requirements. (Mcal per Month/Low Value)

HPG..... Heifer Pregnancy predicts differences in the percent of daughters who are able to conceive and calve at 2 years of age following exposure to breeding. (Percent/High Value)

CEM..... Calving Ease Maternal predicts differences in the percent of daughters who are able to calve unassisted as 2-year-old heifers. (Percent/High Value)

STAY..... Stayability predicts differences in the ability of an animals' retained daughters to remain productive in the herd – calve every year – through 6 years of age. (Percent/High Value)

MARB..... Marbling predicts differences in marbling score – amount of intramuscular fat measured at the 13th rib. (Marbling Score Units/High Value)

YG..... Yield Grade predicts differences in USDA Yield Grade, which is calculated using CW, REA and Fat. (Yield Grade Units/Low Value)

CW..... Carcass Weight predicts differences in actual hot carcass weight. (Pounds/High Value)

REA..... Ribeye Area predicts differences in square inches of ribeye area measured at the 13th rib. (Square Inches/High Value)

FAT..... Fat predicts differences in the depth of backfat measured between the 12th and 13th ribs. (Inches/Low Value)
